Cultural/Arts Participant – University music, dance, or drama groups
Peer Tutor / Mentor – Supported students in programming, databases, and IT subjects

LANGUAGES
- English
- Kiswahili
- Mijikenda (Giriama)

PROFILE
I am a Bachelor of Business Information Technology (BBIT) student specializing in business systems analysis and data management. My focus is on improving processes and ensuring smooth IT operations. I bring a practical toolkit for problem-solving, user support, and clear communication of technical ideas. A reliable team player, I am adept at managing resources efficiently and consistently meeting deadlines, and I seek an opportunity to apply these skills to support and optimize organizational technology.

EDUCATION
Dedan Kimathi University of Technology
Bachelor of Business Information Technology (BBIT)
2022 – 2026
Academic Highlights:
Specialization: Integrating business processes with IT solutions.
Key Projects: Developed ERP simulations and database-driven business applications.
Technical Skills: SQL, Java, Python, HTML/CSS, Microsoft Dynamics (exposure).
Business Acumen: Accounting principles, strategic management, organizational behavior.

EXPERIENCE
IT Attachee
Northern Rangelands Trust (NRT), Nanyuki, Kenya
Feb 2025 – May 2025
Maintained network systems in remote rangeland environments with challenging connectivity.
Provided technical support to staff.
Assisted in the implementation of conservation technology solutions.
Gained experience at the intersection of IT, conservation, and community development.

Hobbies and Interests

- Exploring new technologies and coding projects
- Listening to music and performing arts (singing/dancing)
- Socializing and networking with peers
- Traveling and experiencing different cultures
- Community service and volunteering
